

CHRIS QUIGG · SEMINARS

- [1076] May 4, 2020: Münchner Physik (Tele)Kolloquium, “A Century of Noether’s Theorem”
- [1075] January 28, 2020: Physics & Astronomy Colloquium, The Ohio State University, “A Century of Noether’s Theorem”
- [1074] January 28, 2020: Special Seminar, The Ohio State University, “Perspectives and Questions”
- [1073] November 20, 2019: Theory Seminar, Jefferson Laboratory, “Perspectives and Questions”
- [1072] November 8, 2019: *Lattice QCD at Fermilab: Celebrating the Career of Paul Mackenzie*, Fermilab, “Quarkonium Off & On the Lattice”
- [1071] November 5, 2019: Nuclear / Particle / Astrophysics Seminar, Yale University, “Perspectives and Questions”
- [1070] November 4, 2019: Physics Club Colloquium, Yale University, “A Century of Noether’s Theorem”
- [1069] October 30, 2019: Special Colloquium, NIKHEF, Amsterdam, “A Century of Noether’s Theorem”
- [1068] October 29, 2019: Special Colloquium, NIKHEF, Amsterdam, “Beauty at High Precision / High Sensitivity”
- [1067] October 25, 2019: *Deciphering Strong-Interaction Phenomenology through Precision Hadron Spectroscopy*, Munich Institute for Astro- and Particle Physics (MIAPP), “Three topics in heavy-hadron spectroscopy” DOI: 10.5281/zenodo.3519834
- [1066] September 30, 2019: BEAUTY₂₀₁₉, Ljubljana (Slovenia), Opening Lecture, “Beauty at High Precision / High Sensitivity” DOI: 10.5281/zenodo.3468910
- [1065] August 23, 2019: Joint Experimental Theoretical Seminar, Fermilab, “Perspectives and Questions” DOI: 10.5281/zenodo.3376597
- [1064] May 13, 2019: University of Chicago High-Energy Physics Seminar, “Perspectives and Questions: Meditations on the Future of Particle Physics”
- [1063] April 14, 2019: American Physical Society April Meeting, Denver, *Honoring Leon Lederman*, “In Leon’s company, it seemed that anything might be possible” DOI: 10.5281/zenodo.2638482
- [1062] April 2, 2019: Séminaire commun LPTENS/LPTHE, École normale supérieure, Paris, “Perspectives and Questions: Meditations on the Future of Particle Physics”
- [1061] March 14, 2019: Leon Lederman Public Lecture, Illinois Institute of Technology, “Dream Machines,” DOI: 10.5281/zenodo.2595230
- [1060] March 5, 2019: Experimental Seminar, SLAC National Accelerator Laboratory, “A Century of Noether’s Theorem,” DOI: 10.5281/zenodo.2585371
- [1059] October 30, 2018: Energy Frontier Working Group, Fermilab, “Dream Machines”
- [1058] October 11, 2018: Compact Muon Spectrometer Weekly General Meeting, CERN, “Perspectives and Questions” DOI: 10.5281/zenodo.1458237
- [1057] October 1, 2018: *The Future of Particle Physics: A Quest for Guiding Principles*, Karlsruhe Institute of Technology, “Introduction to *The Future of Particle Physics* (KIT Edition)” DOI: 10.5281/zenodo.1442410

- [1056] August 15, 2018: Fermilab Colloquium, “A Century of Noether’s Theorem” DOI: 10.5281/zenodo.1346275 and video
- [1055] May 31, 2018: Simons Center for Geometry and Physics Workshop, Stony Brook: Exotic Hadrons and Flavor Physics, “Stable Tetraquarks” and video
- [1054] April 20, 2018: NIKHEF Informal Seminar, Amsterdam, “Stable Tetraquarks”
- [1053] April 20, 2018: NIKHEF Colloquium, Amsterdam, “I would like to know . . .”
- [1052] April 10, 2018: Precision Science Workshop, Fermilab, “Physics Beyond Colliders @ CERN”
- [1051] April 4, 2018: *Nico van Kampen Colloquium in Theoretical Physics*, University of Utrecht, “Stable, doubly heavy tetraquark mesons” DOI: 10.5281/zenodo.1210601
- [1050] March 17–24, 2018: *LIII Rencontres de Moriond* session devoted to QCD and High Energy Interactions, La Thuile, Italy, “Stable Tetraquarks” DOI: 10.5281/zenodo.1204622
- [1049] March 11, 2018: University of Michigan *Foundations of Modern Physics* Working Group Workshop, *Particle Physics after the Discovery of the Higgs Boson*, “I would like to know . . .” DOI: 10.5281/zenodo.1196663
- [1048] December 12, 2017: Theoretical Physics Seminar, Fermilab, “Report on CERN’s *Physics Beyond Colliders* Annual Workshop” DOI: 10.5281/zenodo.1117970
- [1047] November 3, 2017: Joint Physics / High Energy Physics Colloquium, Argonne National Laboratory, “Fermilab’s Greatest Hits: Scientific Highlights from the First Fifty Years”
- [1046] October 23, 2017: Strong Interaction Seminar, Technische Universität München, “Stable, Doubly Heavy Tetraquark mesons” DOI: 10.5281/zenodo.1123474
- [1045] October 20, 2017: Physikalisches Kolloquium, Universität Heidelberg, “The Future(s) of Particle Physics” DOI: 10.5281/zenodo.1123481
- [1044] August 2, 2017: 2017 Meeting of the Division of Particles and Fields of the American Physical Society, Fermilab, “Fermilab’s Greatest Hits: Scientific Highlights of the First Fifty Years” DOI: 10.5281/zenodo.1120397
- [1043] June 1, 2017: Canadian Association of Physicists Annual Congress, Queen’s University, “Perspectives and Prospects for Particle Physics”
- [1042] June 1, 2017: Canadian Association of Physicists Annual Congress, Queen’s University, “J. D. Jackson, Physicist, Teacher, Citizen” DOI: 10.5281/zenodo.1120336
- [1041] February 27, 2017: CERN–EPFL–Korea Theory Institute: *New Physics at the Intensity Frontier*, “The *Project X* Physics Study at Fermilab”
- [1040] January 27, 2017: Fermilab Auditorium Lecture, Batavia, “Fermilab’s Greatest Hits: Highlights from the First Fifty Years” DOI: 10.5281/zenodo.1137821 and video
- [1039] December 9, 2016: Journées Pierre Fayet, École Normale Supérieure, Paris, “Neutrinos from the Great Beyond”
- [1038] October 24, 2016: Erwin Schrödinger Colloquium, Universität Zürich, “What Quarkonium Taught Me about the Schrödinger Equation, and vice versa”
- [1037] October 5, 2016: Joint Maryland–Johns Hopkins High-Energy Physics Seminar, University of Maryland, “Looking Ahead after ICHEP 2016”

- [1036] September 26, 2016: *J. D. Jackson: Physicist, Teacher, Citizen*, Lawrence Berkeley National Laboratory, “A Little Tour in Dave Jackson’s Research”
- [1035] September 15, 2016: Theoretical Physics Seminar, Fermilab, “Report on CERN’s *Physics Beyond Colliders* Workshop”
- [1034] August 30, 2016: LHC Physics Center *Topic of the Week*, Fermilab, “Looking Ahead after ICHEP 2016”
- [1033] August 26, 2016: Closing Lecture, *Multi-Boson Interactions 2016*, University of Wisconsin—Madison, “Impressions of MBI 2016”
- [1032] June 3, 2016: Yale University Class of 1966 Fiftieth Reunion Forum, “Life in the Nanonoworld: The Quest for the Higgs Boson”
- [1031] January 18, 2016: Opening Lecture, Symposium on Future Colliders, Hong Kong University of Science and Technology, “Scientific Overview”
- [1030] September 30, 2015: Physics Colloquium, Wichita State University, “Particle Physics in a Season of Change”
- [1029] June 25, 2015: Symposium Symmetries and Phases in the Universe 2015, Kloster Irsee, “High-Energy Collider Physics Overview”
- [1028] May 13, 20, 29, 2015: Short course, Laboratoire de Physique Théorique, École Normale Supérieure & Laboratoire de Physique Nucléaire et de Hautes Énergies, Jussieu, “Large Hadron Collider Physics: The Next Generation” (three talks)
- [1025] May 8, 2015: Colloquium, Instituto de Física Corpuscular, Valencia, “Celebrating Quarkonium: The First Forty Years”
- [1024] May 6, 2015: Séminaire Exceptionnel, Laboratoire de Physique Théorique, École Normale Supérieure & Laboratoire de Physique Nucléaire et de Hautes Énergies, Jussieu, “Celebrating Quarkonium: The First Forty Years”
- [1023] March 27, 2015: Hagopian Family Endowment Colloquium, Florida State University, “Particle Physics in a Season of Change”
- [1022] March 26, 2015: Special Seminar, Florida State University, “Celebrating Quarkonium: The First Forty Years”
- [1021] March 2, 2015: Les Rencontres de Physique de la Vallée d’Aoste, La Thuile, “Quarkonium: The First Forty Years”
- [1020] February 24, 2015: Carl Friedrich von Siemens Foundation Lecture, Munich, “The World According to Higgs”
- [1019] February 21, 2015: Arbeitstreffen Kernphysik, Schleching, “Celebrating Quarkonium: The First Forty Years”
- [1018] January 19, 2015: Hong Kong University of Science & Technology Jockey Club Institute for Advanced Study *Symposium on the Future of High Energy Physics*, “Perspectives at the Energy Frontier”
- [1017] January 4, 2015: American Association of Physics Teachers Winter Meeting, San Diego, *The Higgs and My Classroom*, “Why the Higgs Boson Matters”
- [1016] December 3, 2014: Colloquium, Fermilab, “Celebrating Quarkonium: The First Forty Years”

- [1015] November 11, 2014: PH Seminar, CERN, “Celebrating Quarkonium: The First Forty Years”
- [1014] September 26, 2014: Tufts University Physics & Astronomy Colloquium, “Particle Physics in a Season of Change”
- [1013] September 10, 2014: University of Delaware Physics & Astronomy Colloquium, “Particle Physics in a Season of Change”
- [1012] August 11–15, 2014: Joint CERN–Fermilab Hadron Collider Physics School, Fermilab, “The Standard Model of Particle Physics” (four lectures)
- [1008] July 21–25, 2014: Winter School of the Gleb Wataghin Physics Institute, University of Campinas, Brazil, “Introduction to Particle Physics” (five lectures)
- [1003] June 3, 2014: *TASI 2014* Public Lecture, Boulder, “The World According to Higgs”
- [1002] June 2–4, 2014: *TASI 2014: Journeys through the Precision Frontier: Amplitudes for Colliders*, “The Standard Model of Particle Physics,” three lectures
- [999] April 11–12, 2014: 50 Years of Quarks & Color, University of Maryland, “Electroweak Symmetry Breaking: Status and Prospects”
- [998] April 7, 2014: Institute of Physics Joint High Energy Particle Physics and Astro Particle Physics Groups Annual Meeting, Royal Holloway, University of London, “125-GeV Higgs, What Next?”
- [997] February 27, 2014: Physics Colloquium, Lehigh University, “Particle Physics in a Season of Change”
- [996] February 14, 2014: *Future Circular Collider Study Kickoff Meeting*, University of Geneva, “Perspectives at the Energy Frontier”
- [995] January 24, 2014: Seminar, Universität Zürich, “The Higgs Boson for the Masses?”
- [994] January 23, 2014: Seminar, Eidgenössische Technische Hochschule, Zürich, “Particle Physics in a Season of Change”
- [993] January 21, 2014: Seminar for Boston University / CERN / UniGenève Undergraduates, CERN, “The Higgs Boson for the Masses?”
- [992] December 4, 2013: Advanced Photon Source Colloquium, Argonne National Laboratory, “The Higgs Boson for the Masses?”
- [991] September 18, 2013: Physics Colloquium, University of Bern, “Particle Physics in a Season of Change”
- [990] September 9, 2013: Special Universe Lecture, Excellence Cluster *Origin and Structure of the Universe*, Munich, “The Higgs Boson for the Masses?”
- [989] August 4, 2013: *Snowmass 2013* Panel Discussion, Minneapolis, “What should be the balance in the US program between domestic and overseas facilities?”
- [988] July 10–15, 2013: *Invisibles* School, Institute of Particle Physics Phenomenology, Durham University, “Physics of the Large Hadron Collider,” two lectures
- [986] April 26, 2013: DIS2013, Marseille, “DIS and Beyond”
- [985] April 18, 2013: 41st Annual Llewellyn G. Hoxton Lecture for the General Public, University of Virginia Department of Physics, “The World According to Higgs”

- [984] April 12, 2013: Fermilab Auditorium Lecture, “The World According to Higgs”
- [983] April 4, 2013: Special Mathematical Physics Colloquium, Universidade da São Paulo, “Particle Physics in a Season of Change”
- [982] April 1–6, 2013: ICTP South American Institute for Fundamental Research School, Particle Physics in the LHC Era, São Paulo, “The Standard Model—Its Magic and Its Shortcomings,” five lectures
- [977] March 25, 2013: University of Michigan High-Energy Physics – Astrophysics – Nuclear Physics Seminar, “Neutron–Antineutron Oscillations”
- [976] March 11, 2013: Aspen Winter Physics Conference, *Higgs Quo Vadis*, “Higgs Perspectives”
- [975] February 15, 2013: Annual Meeting, American Association for the Advancement of Science, Symposium: *Is Beauty Truth? Mathematics in Physics from Dirac to the Higgs Boson and Beyond*, “Particle Physics in a Season of Change”
- [974] January 23, 2013: Seminar for BU/CERN/UniGenève Undergraduates, CERN, “The Higgs Boson for the Masses?”
- [973] November 14, 2012: *Accelerators for a Higgs Factory: Linear vs. Circular (HF2012)*, “Physics Potential of a Higgs Factory”
- [972] October 26, 2012: Physics Colloquium, Technical University Dortmund, “Particle Physics in a Season of Change”
- [971] October 12, 2012: Xth Quark Confinement and the Hadron Spectrum, Garching, “Beyond Confinement”
- [970] July 23, 2012: Opening Lecture, 40th SLAC Summer Institute, “Historical Perspective”
- [969] July 16, 2012: Screening and Panel Discussion, Higgs Boson Discovery Explained with *The Atom Smashers*, Landmark Century Center Cinema, Chicago
- [968] June 11, 2012: Invited Lecture, *Tevatron Impact*, Fermilab, “The Tevatron’s Impact on Particle Physics”
- [967] April 4, 2012: Colloquium, Fermilab, “The Higgs Boson for the Masses?”
- [966] February 2, 2012: Conférence publique, Conférence inaugurale de l’Institut de Physique Théorique «Philippe Meyer», “Les révolutions à venir en physique des particules”
- [965] February 1, 2012: Conférence inaugurale de l’Institut de Physique Théorique «Philippe Meyer», “Particle Physics in a Season of Change”
- [964] January 25, 2012: Seminar for BU/CERN/UniGenève Undergraduates, CERN, “Particle Physics in a Season of Change”
- [963] January 3–6, 2012: Nordic Winter Meeting, Gausdal, Norway, “Potential Discoveries at the Large Hadron Collider” (three lectures)
- [960] December 1, 2011: Physics Colloquium, Tsinghua University, Beijing, “Particle Physics in a Season of Change”
- [959] November 14, 2011: Opening Lecture, Hadron Collider Physics Symposium, Paris, “Particle Physics in a Season of Change”

- [958] October 31, 2011: Colloquium, MIT Laboratory for Nuclear Studies, “Particle Physics in a Season of Change”
- [957] October 27, 2011: High Energy Physics Advisory Panel, Washington, “A Tevatron Collider Retrospective”
- [956] September 16, 2011: NIKHEF Colloquium, Amsterdam, “Particle Physics in a Season of Change”
- [955] September 15, 2011: NIKHEF Theory Seminar, Amsterdam, “Topics in Hadronic Physics”
- [954] September 8, 2011: Discovery Colloquium, Niels Bohr Institute, Copenhagen, “Particle Physics in a Season of Change”
- [953] June 17, 2011: Concluding Talk, *Hadron 2011*, Munich, “The Future of Hadrons”
- [952] May 7, 2011: Invited Talk, USCMS Collaboration Meeting, University of Notre Dame, “The Art of the Public Lecture”
- [951] May 6, 2011: Public Lecture, University of Notre Dame, “The Coming Revolutions in Particle Physics”
- [950] May 1, 2011: April Meeting of the American Physical Society, Anaheim, J. J. Sakurai Prize Address, “The Boundless Horizons of Supercollider Physics”
- [949] April 20, 2011: Physics Colloquium, Prague Technical University, “The Coming Revolutions in Particle Physics”
- [948] April 5, 2011: Physics Colloquium, Brookhaven National Laboratory, “The Coming Revolutions in Particle Physics”
- [947] April 1, 2011: Invited Talk, Jonathan Rosner Symposium, University of Chicago, “Jon the Quantum Mechanic”
- [946] March 21–25, 2011: Spring School on the Philosophy of Particle Physics, Maria in der Aue, Germany, “The Standard Model of Particle Physics and Its Problems” (three lectures)
- [943] March 20, 2011: XLVIth Rencontres de Moriond: *Electroweak Interactions and Unified Theories*, La Thuile, “Theoretical Summary”
- [942] February 7–11, 2011: XVI Escola de Verão Jorge André Swieca de Partículas e Campos, “Potential Discoveries at the Large Hadron Collider” (five lectures)
- [937] January 24, 2011: Seminar for BU/CERN/UniGe Undergraduates, CERN, “The Coming Revolutions in Particle Physics”
- [936] December 30, 2010: Renaissance Weekend, Charleston, “The World’s Most Powerful Microscopes”
- [935] December 17, 2010: Symposium on the 25th Anniversary of First $\bar{p}p$ Collisions at the Tevatron, Fermilab, “Theory for the Tevatron Collider: The First 25⁺ Years” (with John Campbell)
- [934] December 2, 2010: Physics Department Colloquium, Arizona State University, “The Coming Revolutions in Particle Physics”
- [933] November 18, 2010: Public Lecture, 2010 Meeting of the Prairie Section of the American Physical Society and Chicago Section of the American Association of Physics Teachers, Illinois Institute of Technology, “The Coming Revolutions in Particle Physics”

- [932] November 10, 2010: University of Chicago/Argonne/Fermilab Joint Speaker Event, *Ethics in Science*, Unity Temple: panelist
- [931] October 30, 2010: Guest Lecture, US LHC User's Organization Annual Meeting, "Mapping the New Worlds"
- [930] October 20, 2010: Universe Cluster Colloquium, Munich, "The Coming Revolutions in Particle Physics"
- [929] October 15, 2010: Physikalisches Kolloquium, Universität Bonn, "The Coming Revolutions in Particle Physics"
- [928] October 9, 2010: Flavour Physics: Strong Dynamics, Rare Decays and New Phenomena, Lake Starnberg, "Light, Liberty, and the Pursuit of Unity-ness"
- [927] September 28, 2010: Solvay Colloquium, Université Libre de Bruxelles, "The Coming Revolutions in Particle Physics"
- [926] September 8, 2010: EuroFlavour2010, Munich, "Future Approaches to Flavour Physics"
- [925] July 20, 2010: XXII Rencontres de Blois: Particle Physics and Cosmology, Concluding Talk, "Highlights and Perspectives"
- [924] May 13, 2010: Cross Talk, Fermilab, "Conceptual Issues in Particle Physics"
- [923] April 6, 2010: LHC Physics Center Seminar, Fermilab, "Learning to See at the LHC"
- [922] March 31–April 3, 2010: Taiwan Spring School, Tainan, "Potential Discoveries at the LHC" (four lectures)
- [918] March 30, 2010: Physics Department Colloquium, National Taiwan University, Taipei, "The Coming Revolutions in Particle Physics"
- [917] March 29, 2010: Physics Department Colloquium, National Central University, Jhongli City, Taiwan, "The Coming Revolutions in Particle Physics"
- [916] March 5, 2010: Rencontres de Physique de la Vallée d'Aoste, La Thuile, "Learning to See at the LHC"
- [915] March 3, 2010: Rencontres de Physique de la Vallée d'Aoste, La Thuile, Roundtable: "The Role of the Tevatron in the LHC Era"
- [914] February 26, 2010: Physics & Astronomy Department Colloquium, Tufts University, "The Coming Revolutions in Particle Physics"
- [913] February 13, 2010: Annual Meeting of the American Physical Society, Washington, "LHC Physics Potential *vs.* Energy"
- [912] February 3, 2010: Physics Department Colloquium, University of Michigan, "The Coming Revolutions in Particle Physics"
- [911] January 21, 2010: Inaugural Symposium, DISCOVERY Center, Copenhagen, "A New World of Particle Physics"
- [910] November 9–13, 2009: Autumn Course, Laboratoire de l'Accélérateur Linéaire, Orsay, "Potential discoveries at the LHC" (four lectures)
- [906] November 5, 2009: Seminar Elementarteilchenphysik, Universität Würzburg, "*Gedanken* Worlds without Higgs Fields"

- [905] October 26, 2009: Physikalisches Kolloquium, Albert-Ludwigs Universität Freiburg, “The Coming Revolutions in Particle Physics”
- [904] October 23, 2009: Theoretical High Energy Physics Seminar, Technical University Munich, “LHC Physics Potential *vs.* Energy”
- [903] October 21, 2009: Arnold Sommerfeld Theory Colloquium, Ludwig-Maximilians-Universität, Munich, “*Gedanken* Worlds without Higgs Fields”
- [902] October 20, 2009: Public Lecture, Bayerische Akademie der Wissenschaften (Munich), sponsored by the Excellence Cluster Universe, “The Coming Revolutions in Particle Physics”
- [901] October 16, 2009: Séminaire des interactions fondamentales, Centre de Physique Théorique, Marseille, “LHC Physics Potential *vs.* Energy” plus “*Gedanken* Worlds without Higgs Fields”
- [900] September 25, 2009: High-Energy Physics and Astrophysics Seminar, Wayne State University, “*Gedanken* Worlds without Higgs”
- [899] September 24, 2009: Physics & Astronomy Department Colloquium, Wayne State University, “The Coming Revolutions in Particle Physics”
- [898] September 22, 2009: Physics Department Colloquium, Boston University, “The Coming Revolutions in Particle Physics”
- [897] September 10, 2009: *Great Minds Lecture*, Illinois Mathematics and Science Academy, “The Coming Revolutions in Particle Physics”
- [896] September 1, 2009: Opening Lecture, Second Workshop on the Large Hadron Electron Collider, Divonne, “Particle Physics and the LHeC”
- [895] August 31, 2009: Informal Seminar, CMS Collaboration, CERN, “LHC Physics Potential *vs.* Energy”
- [894] August 28, 2009: Joint Experimental-Theoretical Seminar, Fermilab, “*Gedanken* Worlds without Higgs”
- [893] May 9, 2009: Plenary Lecture, Joint Meeting of the New England Sections of the American Association of Physics Teachers and the American Physical Society, Northeastern University (Boston), “The Coming Revolutions in Particle Physics”
- [892] April 20, 2009: Münchner Physik Kolloquium, “Mass”
- [891] April 17, 2009: Theoretical High Energy Physics Seminar, Technical University Munich, “*Gedanken* Worlds without Higgs”
- [890] April 8, 2009: Physics Seminar, DESY-Zeuthen, “*Gedanken* Worlds without Higgs”
- [889] March 13, 2009: Roundtable on Plans for the Future, XIII International Workshop on Neutrino Telescopes, Venice, “Perspectives on Neutrino Telescopes”
- [888] February 6, 2009: Séminaire de Physique Experimentale, Laboratoire d’Annecy-le-Vieux de Physique des Particules, “*Gedanken* Worlds without Higgs”
- [887] February 5, 2009: CMS Physics Days, CERN, “*Gedanken* Worlds without Higgs”
- [886] December 19, 2008: Concluding Lecture, *PASC Winter School in Particle, Astrophysics and Cosmology*, Sesimbra, Portugal, “Particle Physics, Astroparticles, and Cosmology in the LHC Era”

- [885] December 16, 2008: Centro de Física Teórica de Partículas Seminar, Instituto Superior Técnico, Universidade Técnica de Lisboa, “*Gedanken* Worlds without Higgs”
- [884] November 26, 2008: 2nd Annual Workshop of the Helmholtz Alliance *Physics at the Terascale*, RWTH Aachen, “The Coming Revolutions in Particle Physics”
- [883] November 21, 2008: Netherlands National Theory Seminar, NIKHEF, Amsterdam, “*Gedanken* Worlds without Higgs”
- [882] November 4, 2008: Helmholtz Alliance *Physics at the Terascale* Seminar, Karlsruhe, “*Gedanken* Worlds without Higgs”
- [881] October 24, 2008: Institute Colloquium and Concluding Talk of the Symposium, *New Physics beyond the Standard Model*, Kavli Institute for Theoretical Physics China, Beijing, “The Coming Revolutions in Particle Physics”
- [880] October 23, 2008: Public Lecture, Tsinghua University, Beijing, “The Large Hadron Collider: a New Era in Particle Physics”
- [879] October 16, 2008: University of Karlsruhe *Graduiertenkolleg*-Workshop, Burg Liebenzell, “Evolving the Standard Model”
- [878] September 21–26, 2008: School on Quantum Physics, Bad Honnef, Germany, “Mass, Electroweak Symmetry Breaking, and Physics at the Fermi Scale” (two lectures)
- [876] July 23–30, 2008: Summer School on Theoretical High-Energy Physics and Cosmology, Paphos, Cyprus, “Introduction to the Standard Model of Particle Physics” (five lectures)
- [871] July 5, 2008: *NuFact 2008*, 10th International Workshop on Neutrino Factories, Super Beams, and Beta Beams, Valencia, “NuFactog: Perspectives”
- [870] June 27, 2008: Physikalisches Kolloquium, Universität Karlsruhe, “Mass”
- [869] June 13, 2008: *Perspectives in Particle Physics*, Stony Brook University, “The Night Before the Revolution”
- [868] May 30, 2008: Kolloquium über Teilchenphysik, Universität Karlsruhe, “The Coming Revolutions in Particle Physics”
- [867] April 17, 2008: Neutrino Journal Club, Fermilab, “Extremely High-Energy Cosmic Neutrinos and Relic Neutrinos”
- [866] April 15, 2008: Israel Joint High-Energy Seminar, Neve Shalom, “Extremely High-Energy Cosmic Neutrinos and Relic Neutrinos”
- [865] April 13, 2008: Yossef Dothan Memorial Lecture (*Emilio Segrè Distinguished Lectures in Physics of the Raymond & Beverly Sackler Foundation*), Tel Aviv University, “Mass”
- [864] March 15, 2008: XLIII Rencontres de Moriond: QCD and Hadronic Interactions (La Thuile, Italy), “Theoretical Summary”
- [863] January 18, 2008: Fermilab Auditorium Lecture Series, “The Coming Revolutions in Particle Physics”
- [862] December 5, 2007: Colloquium, Fermilab, “Mass”
- [861] November 16, 2007: Physics Department Colloquium, Simon Fraser University, “The Coming Revolutions in Particle Physics”

- [860] November 15, 2007: Physics Department Colloquium, University of British Columbia, “The Coming Revolutions in Particle Physics”
- [859] November 14, 2007: Special Seminar, TRIUMF (Vancouver), “Extremely High-Energy Cosmic Neutrinos and Relic Neutrinos”
- [858] October 4, 2007: Physics Department Colloquium, Purdue University, “The Coming Revolutions in Particle Physics”
- [857] October 3, 2007: Special Seminar, Purdue University, “Extremely High-Energy Cosmic Neutrinos and Relic Neutrinos”
- [856] September 15–22, 2007: International Summer School and Conference on High Energy Physics: *The Standard Model and Beyond*, Akyaka - Muğla, Turkey, “The Electroweak Theory and Higgs Physics” (four lectures)
- [852] September 6, 2007: Physics Department Colloquium, Illinois Institute of Technology, “The Coming Revolutions in Particle Physics”
- [851] August 31, 2007: TeV Particle Astrophysics 2007, Venice, “Figments, Fictions, Fantasies: Conference Summary”
- [850] August 29, 2007: TeV Particle Astrophysics 2007, Venice, “The LHC and the Future of Particle Physics”
- [849] August 9, 2007: SLAC Summer Institute, Stanford Linear Accelerator Center, “Cosmic Neutrinos”
- [848] July 25, 2007: Keynote Lecture, *Toward the ILC* (School), Fermilab, “Physics Imperatives for the ILC”
- [847] July 20, 2007: Physics Colloquium, Ruprecht-Karls Universität, Heidelberg, “The Coming Revolutions in Particle Physics”
- [846] July 2 – 5, 2007: Fermilab–KEK Neutrino Summer School “Neutrinos in the Electroweak Theory” (three lectures)
- [843] May 12, 2007: Invited Lecture, Wu-Ki Tung Symposium, Michigan State University, “Mass”
- [842] May 4, 2007: Invited Lecture, Fortieth Anniversary of the Yang Institute for Theoretical Physics, Stony Brook University, “Mass”
- [841] March 7, 2007: Fermilab Community Symposium on the International Linear Collider, “The Physics Landscape”
- [840] March 1, 2007: Citizens’ ILC Task Force, Fermilab, “The Coming Revolutions in Particle Physics”
- [839] February 12, 2007: Low Emittance Muon Collider Workshop, Fermilab, “Giant Steps”
- [838] January 8, 2007: Invited Lecture, Winter Meeting of the American Association of Physics Teachers, Seattle, “The Double Simplex: Envisioning Particles and Interactions”
- [837] January 8, 2007: Plenary Lecture, Winter Meeting of the American Association of Physics Teachers, Seattle, “The Coming Revolutions in Particle Physics”
- [836] November 28, 2006: Ken Stanfield Symposium, Fermilab, “40+ Years of Particle Physics”

- [835] November 21, 2006: Experimental Seminar, Stanford Linear Accelerator Center, “Extremely High-Energy Cosmic Neutrinos and Relic Neutrinos”
- [834] November 20, 2006: Experimental Seminar, Stanford Linear Accelerator Center, “Evolving the Standard Model”
- [833] November 13, 2006: Special Seminar, Institute for High Energy Physics, Beijing, “The Coming Revolutions in Particle Physics”
- [832] November 10, 2006: Closing Lecture, China Center for Advanced Science & Technology *Workshop on TeV Physics and the Large Hadron Collider*, Beijing, “Perspectives on High Energy Physics”
- [831] November 9, 2006: Physics Department Colloquium, Tsinghua University, Beijing, “The Coming Revolutions in Particle Physics”
- [830] November 8, 2006: Physics Department Colloquium, Peking University, Beijing, “The Coming Revolutions in Particle Physics”
- [829] November 8–10, 2006: China Center for Advanced Science & Technology *Workshop on TeV Physics and the Large Hadron Collider*, Beijing, “Electroweak Theory, the Higgs Sector, and Beyond” (four lectures)
- [825] October 19, 2006: Physics Department Colloquium, Pennsylvania State University, “The Coming Revolutions in Particle Physics”
- [824] October 19, 2006: Particle Physics Seminar, Pennsylvania State University, “Extremely High-Energy Cosmic Neutrinos and Relic Neutrinos”
- [823] September 27, 2006: Physics Department Colloquium, Washington University, St. Louis, “The Coming Revolutions in Particle Physics”
- [822] September 23, 2006: Fiftieth Anniversary of the Particle Data Group, Berkeley, “Evolving the Standard Model”
- [821] September 11–12, 2006: Institute for Theoretical Physics, University of Karlsruhe, Germany, “The Electroweak Theory: Issues for the LHC Era” (four lectures)
- [817] September 5–9, 2006: Autumn School for High-Energy Physics, Maria-Laach, Germany, “The Standard Model” (four lectures)
- [813] August 17, 2006: Frontiers in Theoretical Physics, Niels Bohr Institute, Copenhagen, “The Coming Revolutions in Particle Physics”
- [812] August 4, 2006: CERN Summer Student Lectures, “Visualizing particles and their interactions”
- [811] June 22, 2006: Second World Summit: Physics Beyond the Standard Model, Galápagos Islands (Ecuador), “A Journey in Distant Countries: to the Electroweak Scale and Beyond”
- [810] June 15, 2006: Wellesley College Alumnae Visit to Fermilab, “A Little Tour in Particle Physics”
- [809] May 23, 2006: Astro/Theory Joint Pizza Seminar, Fermilab, “Gravitational Lensing of Supernova Neutrinos”
- [808] May 22, 2006: Fermilab Symposium on the Nature of Science, “The Nature of Science”
- [807] May 15–19, 2006: LNF Spring School, Physics in the LHC Era, Frascati, “Electroweak Symmetry Breaking and the Higgs Sector” (two lectures)

- [805] March 27, 2006: LISHEP 2006 – International School on High Energy Physics, Rio de Janeiro, Brazil, “Fermilab Present and Future”
- [804] March 26–31, 2006: LISHEP 2006 – International School on High Energy Physics, Rio de Janeiro, Brazil, “Electroweak Symmetry Breaking and the Higgs Sector” (three lectures)
- [801] March 9, 2006: Particle Theory and Astrophysics Seminar, University of Delaware, “Undulant Cosmologies”
- [800] March 2, 2006: Physics Research Colloquium, Caltech, “Novel Hadrons”
- [799] March 1, 2006: Particle Physics Seminar, University of California, Irvine, “Two Short Subjects: New States Associated with Charmonium; Cosmic Neutrinos & Relics”
- [798] February 28, 2006: Physics Department Colloquium, University of California, Santa Barbara, “The Coming Revolutions in Particle Physics”
- [797] February 27, 2006: Informal High Energy Physics Seminar, Caltech, “The Double Simplex: Envisioning Particles and Interactions”
- [796] February 10, 2006: Neutrino Oscillations in Venice – 2006, “Extremely High Energy Cosmic Neutrinos and Relic Neutrinos”
- [795] February 1, 2006: Sommerfeld Theory Colloquium, Ludwig-Maximilians-Universität, Munich, “The Coming Revolutions in Particle Physics”
- [794] January 11, 2006: J-Term Lecture, LHC Physics Center, Fermilab, “Large Hadron Collider Physics: Your Next Scientific Adventure”
- [793] November 11, 2005: National Science Teachers Association Midwestern Area Convention, Chicago, “The Coming Revolutions in Particle Physics”
- [792] November 1 – 17, 2005: Fermilab Academic Lectures, “The Electroweak Theory and Higgs Physics,” six lectures
- [786] October 29, 2005: Symposium to Celebrate the Fiftieth Anniversary of the Discovery of the Antiproton, Lawrence Berkeley National Laboratory, “New Worlds”
- [785] October 25, 2005: Comunicare Fisica, Laboratori Nazionali di Frascati (Italy), “Comunicare Fisica all’americana”
- [784] October 24, 2005: Seminario di Fisica dei Campi e Particelle, Università di Roma–1 (Italy), “The Double Simplex: Envisioning Particles and Interactions”
- [783] October 8, 2005: World Year of Physics Symposium, Fermilab, “The Coming Revolutions in Particle Physics”
- [782] September 23, 2005: Bill Bardeen Symposium, Fermilab, “Beneath the Electroweak Veil”
- [781] September 9, 2005: Physics Department Colloquium, Kenyon College, “Envisioning Particles and Interactions: The Double Simplex”
- [780] September 8, 2005: Donald Hamister Distinguished Lecture, Kenyon College, “The Coming Revolutions in Particle Physics”
- [779] September 1, 2005: Physics & Astronomy Department Colloquium, University of Nebraska, “The Coming Revolutions in Particle Physics”

- [778] July 25, 2005: Plenary Lecture, 2005 Europhysics Conference on High-Energy Physics, Lisbon, “Hadronic Physics and Exotics”
- [777] July 20, 2005: GustavoFest, Symposium in Honor of Gustavo Branco, Instituto Superior Técnico, Universidade Técnica de Lisboa, “The Double Simplex: Envisioning Particles and Interactions”
- [776] June 29, 2005: QuarkNet Teachers Summer Workshop, Fermilab, “The Double Simplex: Envisioning Particles and Interactions”
- [775] June 13–17, 2005: ICTP Summer School, Trieste, “The Standard Model (Electroweak Theory) and Higgs Physics,” 5 lectures
- [770] April 25, 2005: Physics Department Colloquium, University of California, Berkeley, “The Double Simplex: Envisioning Particles and Interactions”
- [769] April 22, 2005: F. O. Birmingham Memorial Lecture, Wylie High School, Southern Methodist University, “The State of Physics . . . 40+ Years after the Feynman Lectures”
- [768] April 22, 2005: Physics Department Seminar, Southern Methodist University, “The Coming Revolutions in Particle Physics”
- [767] April 19, 2005: Plenary Lecture, Spring Meeting of the American Physical Society, Tampa, “The Double Simplex: Envisioning Particles and Interactions”
- [766] April 4, 2005: Particle Physics Seminar, University College, London, “The Double Simplex: Envisioning Particles and Interactions”
- [765] March 28, 2005: HETEP Seminar, University of Illinois—Urbana—Champaign, “The Lost Tribes of Charmonium”
- [764] March 6–11, 2005: XXXIII International Meeting on Fundamental Physics, Benasque (High Pyrenees), Aragon, Spain, “Three Lectures on Collider Physics”
- [761] March 4, 2005: Public Lecture, Museo de las Ciencias, Valencia. “The Coming Revolutions in Particle Physics”
- [760] March 3, 2005: Universidad Autónoma de Madrid, “The Double Simplex: Envisioning Particles and Interactions”
- [759] February 15, 2005: CERN Particle Physics Seminar, “The Double Simplex: Envisioning Particles and Interactions”
- [758] February 1, 2005: *Musique et Physique*, Lectures to Celebrate the Fiftieth Anniversary of CERN, the Hundredth Anniversary of Einstein’s Annus Mirabilis, and the World Year of Physics, Physics Department, University of Geneva, “Et rien ne fut plus comme avant . . . ”
- [757] January 8, 2005: Eightieth Birthday Celebration for J. D. Jackson, Lawrence Berkeley National Laboratory, “Looking Ahead to Dave Jackson’s 90th Birthday Gala”
- [756] December 2, 2004: Physics Department Colloquium, Johns Hopkins University, “The Double Simplex: Envisioning Particles and Interactions”
- [755] December 1, 2004: High-Energy Physics Seminar, Johns Hopkins University, “Cosmic-Neutrino Absorption Spectroscopy and the Evolution of the Universe”
- [754] November 30, 2004: Elementary Particle Physics 2010 Panel, Washington, “The Coming Revolutions in Particle Physics”

- [753] November 9, 2004: New Horizons in Science Briefing (Council for the Advancement of Science Writing), University of Arkansas, “The Coming Revolutions in Particle Physics”
- [752] October 24, 2004: First Meeting of the American Physical Society Topical Group on Hadronic Physics, Fermilab, “Meson Spectroscopy: a Theoretical Overview”
- [751] October 21, 2004: Physics & Astronomy Colloquium, University of Oklahoma, “The Double Simplex: Envisioning Particles and Interactions”
- [750] October 21, 2004: High-Energy Physics Seminar, University of Oklahoma, “The Lost Tribes of Charmonium (and Other Stories)”
- [749] October 14, 2004: Physics Department Colloquium, Massachusetts Institute of Technology, “The Double Simplex: Envisioning Particles and Interactions”
- [748] September 29, 2004: DuPage Division, Illinois Association of School Boards Fall Dinner Meeting, Fermilab, “Remarks on Teaching Science and the Nature of Science”
- [747] September 28, 2004: Physics Department Colloquium, Kansas State University, “Nature’s Greatest Puzzles”
- [746] September 27, 2004: Physics Department Colloquium, University of Kansas, “The Double Simplex: Envisioning Particles and Interactions”
- [745] September 13, 2004: Physics Department Colloquium, Iowa State University, “The Coming Revolutions in Particle Physics”
- [744] September 8, 2004: Physics Department Colloquium, Indiana University, “The Coming Revolutions in Particle Physics”
- [743] August 3, 2004: Science Undergraduate Laboratory Internships Lecture, Stanford Linear Accelerator Center, “Envisioning Particles and Interactions”
- [742] August 2, 2004: Opening Talk, SLAC Summer Institute, Stanford Linear Accelerator Center, “Nature’s Greatest Puzzles”
- [741] July 17, 2004: Physics at LHC 2004, Vienna, Concluding Talk
- [740] July 12, 2004: DESY Colloquium, Hamburg, “Envisioning Particles and Interactions”
- [739] June 29, 2004: Sixth International Conference on Hyperons, Charm, and Beauty Hadrons, Illinois Institute of Technology, “Quarkonium: New Developments”
- [738] June 5, 2004: Heavy Quarks and Leptons 2004, University of Puerto Rico, Mayagüez, Conference Summary
- [737] April 28, 2004: Colloquium, Fermilab, “The Coming Revolutions in Particle Physics”
- [736] April 21, 2004: High-Energy / RIKEN Theory Seminar, Brookhaven National Laboratory, “Charmonium: the Next Wave”
- [735] April 20, 2004: Physics Department Colloquium, Brookhaven National Laboratory, “The Double Simplex: Envisioning Particles and Interactions”
- [734] March 23, 2004: Séminaire Général du Service de Physique Théorique, Saclay, “Le double simplexe : une conception des particules élémentaires et des interactions fondamentales”
- [733] March 11, 2004: Tevatron University, Fermilab, “The Double Simplex: Envisioning Particles and Interactions”

- [732] March 5, 2004: XVIIIth Rencontres de la Vallée d'Aoste, Evening Lecture, "The Double Simplex: Envisioning Particles and Interactions"
- [731] March 3, 2004: XVIIIth Rencontres de la Vallée d'Aoste, Invited Talk, "Quarkonium: New Developments"
- [730] February 26, 2004: Thursday Theory Seminar, CERN, "Charmonium: the Next Wave"
- [729] February 24, 2004: Institute for Particle Physics Colloquium, University of Valencia, "Envisioning Particles and Interactions"
- [728] February 23, 2004: Theoretical Physics Seminar, University of Valencia, "Charmonium: the Next Wave"
- [727] February 6, 2004: Physics Division Colloquium, Argonne National Laboratory, "The Coming Revolutions in Particle Physics"
- [726] February 2, 2004: High-Energy Physics Seminar, University of Chicago, "Charmonium: the Next Wave"
- [725] November 10, 2003: Physics Department Colloquium, Harvard University, "The Double Simplex: Envisioning Particles and Interactions"
- [724] November 10, 2003: HEPL Seminar, Harvard University, "Charmonium: the Next Wave"
- [723] October 7, 2003: Colloquium, Stanford Linear Accelerator Center, "Envisioning Particles and Interactions"
- [722] October 7, 2003: Experimental Physics Seminar, Stanford Linear Accelerator Center, "Charmonium: the Next Wave"
- [721] September 12, 2003: Physics Department Colloquium, University of Virginia, "Envisioning Particles and Interactions"
- [720] September 5, 2003: Joint Experimental Theoretical Seminar, Fermilab, "The Double Simplex: Envisioning Particles and Interactions"
- [719] August 15, 2003: QuarkNet Teachers Conference, Fermilab, "Envisioning Particles and Interactions"
- [718] June 1–14, 2003: CERN-CLAF School, Mexico, "The Standard Model and Beyond" (four lectures)
- [714] April 22, 2003: Physics for Everyone Lecture, Fermilab, "Physics without Borders"
- [713] April 5, 2003: Invited Talk, April Meeting of the American Physical Society / DPF2003, "A TeV Linear Collider: Why? Why Now?"
- [712] April 5, 2003: April Meeting of the American Physical Society / DPF2003, "Characterizing Neutrino Properties and Cosmic Sources with Neutrino Observatories"
- [711] January 30, 2003: *Neutrinos: Data, Cosmos, and Planck Scale* Program Seminar, Kavli Institute for Theoretical Physics, Santa Barbara, "Neutrino Observatory Characterization of Cosmic Sources and Neutrino Properties"
- [710] January 9, 2003: Physics Department Colloquium, University of Chicago, "The Futures of Particle Physics"

- [709] November 15, 2002: Physics Department Colloquium, University of Arizona, “The Futures of Particle Physics”
- [708] October 30, 2002: Physics Department Colloquium, University of Pennsylvania, “The Coming Revolutions in Particle Physics”
- [707] October 29, 2002: Physics Department Colloquium, Bucknell University, “The Higgs Boson and the Origins of Mass”
- [706] October 28, 2002: Public Lecture, Bucknell University, “The Coming Revolutions in Particle Physics”
- [705] October 18, 2002: Moti Lal Rustgi Memorial Lecture, University of Buffalo, “The Coming Revolutions in Particle Physics”
- [704] October 11, 2002: Journal Club, Fermilab, “*B*-Meson Gateways to Missing Charmonium Levels”
- [703] August 25-30, 2002: European School of Physics, Pylos, Greece, “The Standard Model (Electroweak Theory)” (six lectures)
- [697] July 25, 2002: Neutrinos for Fun and Profit Seminar, Fermilab, “Interactions of Extraterrestrial Neutrinos”
- [696] April 21, 2002: Invited Talk, April Meeting of the American Physical Society, Albuquerque, “The Art of the Public Lecture”
- [695] February 13, 2002: Physics Department Colloquium, Universitat Autònoma de Barcelona, “Future Directions for Particle Physics”
- [694] February 12, 2002: Museu de la Ciència de la Fundació “La Caixa,” Barcelona, “The Coming Revolutions in Particle Physics”
- [693] January 14, 2002: Twenty-First Century Science Lecture, Graham School of General Studies, University of Chicago, “The Coming Revolutions in Particle Physics”
- [692] January 5, 2002: Saturday Morning Physics, Fermilab, “Particles and Forces”
- [691] December 3, 2001: The Once and Future Web, a Symposium at the Stanford Linear Accelerator Center, “How the Web Has Changed How High-Energy Physics Is Done”
- [690] November 27, 2001: Physics Department Colloquium, Boston University, “The Futures of Particle Physics”
- [689] November 2, 2001: The Future of Creativity Symposium at the School of the Art Institute of Chicago, “Fermilab as a Creative Community”
- [688] October 27, 2001: Closing Lecture of the Third International Symposium on Large Hadron Collider Physics and Detectors, Chia, Sardinia, Italy, “Visions: the Coming Revolutions in Particle Physics”
- [687] July 20, 2001: Snowmass 2001: A Summer Study on the Future of Particle Physics, closing talk, “Next Steps”
- [686] July 1, 2001: Snowmass 2001: A Summer Study on the Future of Particle Physics, opening talk, “Why We Are Here”
- [685] June 22, 2001: Particle Accelerator Conference, Chicago, keynote address, “Particle Physics—Future Directions”

- [684] June 1, 2001: Les Houches Workshop on Collider Physics, “Summary and Outlook”
- [683] April 30, 2001: Annual Meeting of the American Physical Society, Washington, “Snowmass 2001 and the Future of Particle Physics”
- [682] March 30, 2001: Forum 21: World Cultural Forum, Deauville, France, “New Worlds of Particle Physics”
- [681] March 4-5, 2001: Frontiers of Contemporary Physics, Vanderbilt University, “The Futures of Particle Physics,” two lectures
- [679] February 16, 2001: Annual Meeting of the American Association for the Advancement of Science, San Francisco, symposium on *The Coming Revolutions in Particle Physics*, “A Decade of Discovery”
- [678] February 7, 2001: Physics Students Prize Lecture, Ohio Wesleyan University, “Coming Attractions in Particle Physics”
- [677] February 7, 2001: Physics Lecture, Ohio Wesleyan University, “Particle Physics: the Science of Matter, Space, and Time”
- [676] February 1, 2001: Tevatron University, Fermilab, “The Futures of Particle Physics”
- [675] January 17, 2001: Quark Matter 2001, State University of New York, Stony Brook, “Physics at the Millennium”
- [674] January 9, 2001: Aspen Winter Physics Conference, “The Futures of Particle Physics”
- [673] January 6, 2001: Saturday Morning Physics, Fermilab, “Particles and Forces”
- [672] December 11, 2000: High-Energy Physics Lunch Seminar, University of Chicago, “The Road to Snowmass”
- [671] November 14, 2000: Food for Thought Seminar, Fermilab, “The Road to Snowmass”
- [670] November 14, 2000: Science for Everyone Lecture, Fermilab, “Particle Physics: The World of Matter, Space, and Time”
- [669] November 11, 2000: Quarknet Weekend @ Fermilab, “The Secret Life of Higgs Bosons”
- [668] November 1, 2000: Research Progress Meeting, Lawrence Berkeley National Laboratory, “Preparations for Snowmass 2001”
- [667] September 27, 2000: DESY Theory Workshop: CP Violation and Rare Processes: Standard Model and Beyond, “Discrete Symmetries: the Standard Model and Beyond”
- [666] September 22, 2000: ECFA/DESY Linear Collider Workshop, Hamburg, “Preview of Snowmass 2001”
- [665] August 9, 2000: DPF2000, Ohio State University, “Preview of Snowmass 2001”
- [664] July 17–25, 2000: CERN Lectures for Summer Students, “The Standard Model of Particle Physics,” eight lectures
- [656] June 27, 2000: Fermilab Users Meeting, “Preview of Snowmass 2001”
- [655] June 18, 2000: State University of New York, Stony Brook, Symposium on Physics and Astronomy at the Millennium, “Frontiers of Physics & Astronomy for the New Millennium” (closing lecture)

- [654] June 5–8, 2000: Theoretical Advanced Studies Institute, Boulder, “The Electroweak Theory,” four lectures
- [650] April 27, 2000: Physics Department Colloquium, University of California, Los Angeles, “Coming Attractions in Particle Physics”
- [649] April 3, 2000: Colloquium, Stanford Linear Accelerator Center, “Physics Opportunities in Fermilab’s Futures”
- [648] April 15, 2000: Society of Physics Students Regional Meeting, University of Missouri–Kansas City, “Nothing Is Too Wonderful to Be True”
- [647] March 18, 2000: Fermilab Symposium on the Nature of Science, “The Nature of Science”
- [646] February 25, 2000: Physics Department Colloquium, University of North Carolina, Chapel Hill, “Coming Attractions in Particle Physics”
- [645] February 25, 2000: Astrophysics Journal Club, University of North Carolina, Chapel Hill, “Neutrino Physics with a Millimole of Muons”
- [644] February 14–19, 2000: Asian Winter School in Particle Physics, Korea Institute for Advanced Study, Seoul, “Physics of the Higgs Sector,” five lectures
- [639] January 8, 2000: Saturday Morning Physics, Fermilab, “Particles and Forces”
- [638] December 15, 1999: $\mu\mu$ ’99, 4th International Conference on the Physics Potential and Development of $\mu\mu$ Colliders, San Francisco, “The State of the Standard Model”

- [364] November 5, 1987: Physics Colloquium, Kenyon College, Gambier, Ohio, “Quantum Mechanics and Quarkonium”
- [363] November 5, 1987: Wellesley College Alumni Club of Chicago, Fermilab, “Elementary Particle Physics and Fermilab”
- [362] October 16, 1987: SSC Central Design Group Design Seminar, “Highlights of the ICFA Meeting”
- [361] October 15, 1987: Physics Department Colloquium, University of California, Santa Cruz : “Supercollider Physics”
- [360] October 14, 1987: Chicago High-Tech Association Symposium on the SSC : “The Science of the Supercollider”
- [359] October 13, 1987: Public Lecture, Southern Nazarene University, Bethany, OK : “Supercollider!”
- [358] October 13, 1987: Student Seminar, Southern Nazarene University, Bethany, OK : “Doing Science in the Large Laboratories”
- [357] October 9, 1987: Meeting of the Ohio Section of the American Physical Society, Youngstown State University : “Elementary Particle Physics and the Superconducting Super Collider”
- [356] September 30, 1987: Physics Department Colloquium, University of Colorado, Boulder, “Supercollider Physics”
- [355] September 30, 1987: Informal High Energy Physics Seminar, University of Colorado, Boulder, “Physics of the 1-TeV Scale”

- [354] September 23, 1987: Physics 290E Seminar, University of California, Berkeley, “Physics of the 1-TeV Scale”
- [353] September 18, 1987: Fermilab Auditorium Lecture Series, “Supercollider!”
- [352] September 10, 1987: Four-dimensional Physics Seminar, Lawrence Berkeley Laboratory, “The Stanford Symposium on Heavy Flavors”
- [351] September 5, 1987: International Symposium on Production and Decay of Heavy Flavors, Stanford University : “Conference Summary”
- [350] August 12-14, 1987: SLAC Summer Institute : Looking beyond the Z^0 , “Hadron Colliders (Theoretical),” three lectures
- [347] July 10, 1987: Mini-Symposium on the Occasion of the Tenth Anniversary of the Upsilon (b -Quark), Fermilab, “ B 's in Weak Interactions.”
- [346] June 12, 1987: Plenary Meeting of the European Committee on Future Accelerators, CERN, “New Facilities in the USA”
- [345] May 22, 1987: Annual Meeting of the Fermilab Industrial Affiliates, “Particle Physics in the Twenty-first Century”
- [344] May 11, 1987: From Colliders to Super Colliders Workshop, University of Wisconsin, Madison, “Survey of Tevatron Fixed-Target Physics”
- [343] May 5, 1987: Canada and the SSC Workshop, Carleton University, Ottawa, “Physics at the SSC”
- [342] April 25, 1987: South Dakota Academy of Sciences Annual Meeting, Aberdeen, “The Superconducting Super Collider”
- [341] April 24, 1987: Public Lecture, South Dakota State University, Brookings, “The Superconducting Super Collider”
- [340] April 20, 1987: Society of Physics Students Public Lecture, University of Iowa, “Supercollider! Meeting the Future Head On”
- [339] April 20, 1987: Physics Department Colloquium, University of Iowa, “Supercollider Physics”
- [338] April 14, 1987: Adler Planetarium Evening Lecture Series, Chicago, “Particle Physics Through the 1990s”
- [337] April 6, 1987: Institute of Physics Spring Meeting on Nuclear and Particle Physics, University of Birmingham, England, “News from the USA”
- [336] March 21, 1987: XXIIe Rencontres de Moriond, Les Arcs, Savoie, “Conference Summary”
- [335] March 20, 1987: XXIIe Rencontres de Moriond, Les Arcs, Savoie, “Status Report : The Tevatron and the SSC”
- [334] March 13, 1987: Theoretical Physics Seminar, Ecole Polytechnique, Palaiseau, “Physics of the SSC”
- [333] March 12, 1987: Séminaire Commun – Paris VI-VII – Ecole Normale Supérieure, LPTHE Jussieu, “La Physique au Supercollisionneur”
- [332] February 27, 1987: Physics Department Colloquium, University of Virginia : “Supercollider Physics”

- [331] February 24, 1987: High Energy Physics Seminar, University of Minnesota : “Physics Opportunities of the SSC”
- [330] February 16, 1987: Annual Meeting of the American Association for the Advancement of Science, Chicago : “A Theoretical View of Elementary Particle Physics”
- [329] February 14, 1987: AAAS Youth Symposium, Chicago : “Particle Physics in the 1990s : the Superconducting Supercollider”
- [328] February 2–5, 1987: 8th Nuclear and Particle Physics Summer School, Launceston, Tasmania : “Recent Results from Fermilab Experiments,” four lectures
- [324] January 30, 1987: Physics Department Colloquium, University of Melbourne : “Supercollider Physics”
- [323] January 16, 1987: Friday Afternoon Physics Lecture, University of Chicago, “Supercollider Physics.”
- [322] January 13, 1987: Physics Seminar, Lawrence University : “Quantum Mechanics and Heavy Quark Interactions.”
- [321] January 12, 1987: Science Hall Colloquium, Lawrence University : “Supercollider Physics.”
- [320] November 21, 1986: Workshop on a Northeast America Site for the SSC, Syracuse University, “The SSC : Science.”
- [319] October 20, 1986: Physics Department Colloquium, University of Washington : “Supercollider Physics.”
- [318] September 19, 1986: Elementary Particle Physics Seminar, MIT : “Signatures for Technicolor.”
- [317] October 1986 : Fermilab Academic Lecture Series : “Discrete Physics,” five lectures.
- [312] July 3, 1986: Vth International Conference on $\bar{p}p$ Interactions, Aachen, “The SSC : Scientific Motivation and Technical Progress”
- [311] June 24, 1986: Laboratoire de Physique Théorique et Hautes Energies, Orsay, “Signatures for Technicolor”
- [310] June 18, 1986: XVII International Symposium on Multiparticle Dynamics, Seewinkel, Austria, “Beyond the Standard Model”
- [309] May 15, 1986: 7th Vanderbilt High Energy Physics Conference, Nashville, “To Explore the 1-TeV Scale”
- [308] April 29, 1986: High Energy Physics Seminar, SUNY, Stony Brook, “Supercollider Physics”
- [307] April 24, 1986: AAPT Conference on the Teaching of Modern Physics, Fermilab, “Elementary Particle Physics : Discoveries, Insights, and Tools”
- [306] April 4, 1986: Fermilab Beam Dump Workshop, “Superparticles”
- [305] November 12, 1985: High Energy Theory Seminar, Purdue University, “Signatures for Technicolor”
- [304] January 28 – February 5, 1986 : Winter School in Theoretical Physics, Panchgani, India, “Supercollider Physics,” (six lectures)
- [298] October 17, 1985: Central States Universities, Inc., Symposium on New Opportunities in Science, Argonne National Laboratory, “The Superconducting Super Collider”

- [297] October 8, 1985: Max-Planck-Institut, Munich, “Supercollider Physics”
- [296] October 1–4, 1985: International School of Elementary Particle Physics, Kupari–Dubrovnik, Yugoslavia, “Physics at the Superconducting Super Collider,” five lectures
- [291] September 19, 1985: Lawrence Berkeley Laboratory Research Progress Meeting, “Signatures for Technicolor”
- [290] August 7, 1985: SLAC Summer Institute and Topical Conference, “Supersymmetry at Very High Energies”
- [289] July 11, 1985: DOE Lab-Wide Review, Fermilab, “Fermilab Physics in the Contemporary Context”
- [288] July 1, 1985: Fermilab Summer Students Lecture, “Elementary Particles and Forces”
- [287] May 15, 1985: Elementary Particle Physics Seminar, Centre d’Etudes Nucléaires de Saclay, “La Physique à 40 TeV au Super Collisionneur $p^{\pm}p$ ”
- [286] April 17, 1985: Chautauqua Short Course in Elementary Particle Physics, Argonne National Laboratory, “The Fundamental Particles : Their Properties and Interactions ; The Standard Model,” two lectures
- [284] April 2, 1985: Illinois Institute of Technology Physics Colloquium, “Supercollider Physics”
- [283] March 18, 1985: Oregon Workshop on Super-High Energy Physics, “New Collider Results : Reports from Aosta and Tsukuba” (with Keith Ellis)
- [282] March 15, 1985: Symposium on Physics of Proton-Antiproton Collisions, Tsukuba, “Supercollider Physics”
- [281] March 11, 1985: University of Tokyo Theoretical Physics Seminar, “Search for Supersymmetric Particles”
- [280] March 6, 1985: Rutgers University Physics Colloquium, “Supercollider Physics”

- [94] April 7, 1977: High-Energy Physics Division Seminar, Argonne National Laboratory, “The Higgs Boson and Weak Interactions at High Energies”
- [93] March 30, 1977: High Energy Discussion Group Meeting, Brookhaven National Laboratory, “What May We Expect at ISABELLE Energies and Beyond?”
- [92] March 18, 1977: XII Rencontre de Moriond, Flaine, “Summary of the Leptonic Interactions Session”
- [91] March 15, 1977: XII Rencontre de Moriond, Flaine, “Color and the Drell-Yan Process”
- [90] March 12, 1977: XII Rencontre de Moriond, Flaine, “Issues in Charmed Particle Spectroscopy”
- [89] March 4, 1977: TH Division Seminar, CERN, Weak Interactions at High Energy and the Mass of the Higgs Boson”
- [88] March 1, 1977: TH Division Seminar, CERN, “Production and Detection of Intermediate Vector Bosons”
- [87] February 16, 1977: Fermilab Colloquium, “Production and Detection of Intermediate Vector Bosons”
- [86] February 2, 1977: High-Energy Physics Seminar, University of Chicago, “Production and Detection of Intermediate Vector Bosons”
- [85] December 1, 1976: High-Energy Physics Seminar, Iowa State University, “Spectroscopy of Charmed Baryons”
- [84] November 9, 1976: HETEP Seminar, University of Illinois, “Production and Detection of Intermediate Vector Bosons”

- [83] October 25, 1976: High-Energy Physics Seminar, University of Michigan, “Production and Detection of Intermediate Vector Bosons in pp and $\bar{p}p$ Collisions”
- [82] September 30, 1976: Special High-Energy Physics Seminar, Brookhaven National Laboratory, “Spectroscopy of Charmed Baryons”
- [81] August 13, 1976: Joint Experimental Theoretical Seminar, Fermilab, “Prospectus : Charmed Baryon Spectroscopy”
- [80] June 4, 1976: Joint Experimental Theoretical Seminar, Fermilab, “Weak Interactions at FermiClash”
- [79] March 3, 1976: Second International Conference on New Results in Particle Physics, Vanderbilt University, Summary Talk
- [78] January 16, 1976: Joint Experimental Theoretical Seminar, Fermilab, “The Discovery of Heavy Leptons and Other New Particles—A Fantasy”
- [77] October 6, 1975: High-Energy Physics Seminar, University of Chicago, “Survey of Strong-Interaction Physics”
- [76] September 18, 1975: Invited Talk at the Fermilab Bubble Chamber Symposium
- [75] August 29, 1975: 1975 Meeting of the Division of Particles and Fields of the American Physical Society, University of Washington, “Strong Interaction : Theory” (rapporteur talk)
- [74] August 19, 1975: Gordon Research Conference, Meriden, New Hampshire, “High-Energy Collisions in Outline”
- [73] July 25, 1975: TH Division Seminar, CERN, “The Hunt for Charmed Mesons”
- [72] July 21, 1975: Nimrod Lecture, Rutherford High Energy Laboratory, “The Structure of Multiple Production”
- [71] July 14, 1975: VI International Colloquium on Multiparticle Dynamics, Oxford, “An Agenda for Correlations”
- [70] June 18, 1975: Institute of Nuclear Physics / Warsaw University Joint High-Energy Physics Seminar, “The Structure of Multiple Production”
- [69] May 3, 1975: Annual Meeting of the Fermilab Users Organization, “The Future of Strong Interactions”
- [68] April 25, 1975: High-Energy Physics Seminar, University of Minnesota, “The Structure of Multiple Production”
- [67] April 23, 1975: Physics Department Colloquium, Northwestern University, “The Charm Chase”
- [66] April 9, 1975: Carnegie-Mellon–Pittsburgh High-Energy Physics Seminar, “Nonleptonic Decays of Charmed Mesons”
- [65] April 7, 1975: High-Energy Physics Seminar, University of Chicago, “Nonleptonic Decays of Charmed Mesons”
- [64] April 2, 1975: Theoretical Physics Seminar, Cornell University, “Nonleptonic Decays of Charmed Mesons”
- [63] March 4, 1975: Theoretical Physics Seminar, Fermilab, “How to Find Charmed Mesons—*Experimentally*”

- [62] January 31, 1975: Joint Experimental-Theoretical Seminar, Fermilab, “The Structure of Multiple Production”
- [61] December 13, 1974: Joint Experimental-Theoretical Seminar, Caltech, “Isolating the Exchanges in Multiple Production”
- [60] December 11, 1974: Theory Seminar, Stanford Linear Accelerator Center, “Isolating the Exchanges in Multiple Production”
- [59] December 10, 1974: Research Progress Meeting, Lawrence Berkeley Laboratory, “Isolating the Exchanges in Multiple Production”
- [58] December 6, 1974: Joint Experimental-Theoretical Seminar, University of California, Los Angeles, “Isolating the Exchanges in Multiple Production”
- [57] November 18, 1974: High-Energy Physics Seminar, University of Chicago, “Lessons from Correlations”
- [56] October 10, 1974: Enrico Fermi Institute Seminar, University of Chicago
- [55] October 9, 1974: Theory Seminar, University of Wisconsin, “Clustering and Quantum-Number Mobility”
- [54] May 14, 1974: High-Energy Physics Seminar, State University of New York, Stony Brook, “Cluster Models of Hadron Production”
- [53] May 1, 1974: Elementary Particle Seminar, University of Rochester, “Clustering in Multiple Production”
- [52] April 27, 1974: Experimental Meson Spectroscopy–1974, Boston, “Meson Spectroscopy and the Phenomenology of High-Energy Collisions”
- [51] February 5, 1974: High-Energy Physics Seminar, State University of New York, Stony Brook, “Two-Body Reactions near 90° ”
- [50] January 24, 1974: Particle Physics Seminar, Brookhaven National Laboratory, “Correlations in Particle Production”
- [49] January 17, 1974: High Energy Physics Colloquium, Argonne National Laboratory, “What Have We Learned from High-Energy Physics?”
- [48] December 19, 1973: Colloquium, National Accelerator Laboratory, “The Two-Component Picture of Particle Production”
- [47] November 30, 1973: National Accelerator Laboratory Topical Conference : *Phenomena at Large Transverse Momenta* (panelist)
- [46] August 16, 1973: Invited Talk, 1973 Meeting of the Division of Particles and Fields of the American Physical Society, “What Have We Learned from Very High Energy Experiments?”
- [45] August 27–September 1, 1973 : Canadian Institute for Particle Physics Summer School, Montréal, “Two-Component Models for Particle Production (three lectures)”
- [42] July 16, 1973: Elementary Particle Seminar, Eidgenössische Technische Hochschule, Zürich, “Correlations in Multiparticle Production at NAL and ISR Energies”
- [41] June 15, 1973: Gordon Research Conference, Plymouth, New Hampshire, “The Multiperipheral Model”

- [40] May 18, 1973: Princeton University / Institute for Advanced Study Joint Seminar, “Correlations in Multiparticle Production”
- [39] May 2, 1973: Cambridge Joint Theory Seminar, Harvard University, “Perspectives on Correlations”
- [38] March 28, 1973: International Conference on New Results from Experiments on High-Energy Particle Collisions, “Perspectives on Correlations”
- [37] January 15, 1973: Theoretical Physics Seminar, State University of New York, Stony Brook, “Charge Transfer in Multiple Production”
- [36] December 9, 1972: National Accelerator Laboratory Topical Conference, *Quarks and Partons : What Good Are They?* (panelist)
- [35] November 30, 1972: High-Energy Theory Seminar, Argonne National Laboratory, “Understanding Pion-Deuteron Scattering at High Energy”
- [34] November 13, 1972: High-Energy Physics Seminar, University of Michigan, “Can We Interpret High-Energy Scattering on Deuterons?”
- [33] October 24, 1972: Experimental Theoretical Seminar, National Accelerator Laboratory, “Proton-Proton Elastic Scattering”
- [32] September 22, 1972: Friday Lunch Talk, National Accelerator Laboratory, “Deuteronomy and Revelations”
- [31] September 8, 1972: XVI International Conference on High Energy Physics, Chicago, “Theory and Practice of Deuteron Corrections”
- [30] June 5, 1972: High Energy Discussion Group Meeting, Brookhaven National Laboratory, “Physics with ISABELLE”
- [29] March 2, 1972: Elementary Particles Seminar, State University of New York, Stony Brook, “What Can Be Learned from Two-Body Inclusive Cross Sections?”
- [28] February 15, 1972: High-Energy Physics Seminar, University of Notre Dame, “What Can Be Learned from Two-Body Inclusive Cross Sections?”
- [27] February 15, 1972: High Energy Physics Division Colloquium, Argonne National Laboratory, “What Can Be Learned from Two-Body Inclusive Cross Sections?”
- [26] February 14, 1972: High-Energy Physics Seminar, University of Illinois, “What Can Be Learned from Two-Body Inclusive Cross Sections?”
- [25] November 10, 1971: High-Energy Physics Seminar, Carnegie-Mellon University, “Double Particle Exchange and Exotic Reactions”
- [24] October 14, 1971: Elementary Particles Seminar, State University of New York, Stony Brook, “Review of the International Symposium on Electron and Photon Interactions at High Energies”
- [23] September 21, 1971: High-Energy Physics Seminar, Nevis Laboratories, “Inclusive Reactions”
- [22] September 14, 1971: Elementary Particles Seminar, State University of New York, Stony Brook, “Topics of Current Interest in High-Energy Physics”
- [21] August 31, 1971: Rapporteur Talk, Meeting of the Division of Particles and Fields of the American Physical Society, Rochester, “Inclusive Reactions”

- [20] July 10, 1971: Topical Meeting on Inclusive Hadron Reactions, Rutherford High Energy Laboratory, “Multiparticle Reactions at Intermediate Energies”
- [19] June 25, 1971: High-Energy Physics Seminar, Rutherford High Energy Laboratory, “Regge Cut Contributions to Exotic Boson-Exchange Cross Sections”
- [18] June 10, 1971: Special Seminar, Laboratoire de Physique Théorique, Orsay, “Regge Cut Contributions to Exotic Boson-Exchange Cross Sections”
- [17] June 9, 1971: Special Seminar, Institute for Theoretical and Experimental Physics, Moscow, “Regge Cut Contributions to Exotic Boson-Exchange Cross Sections”
- [16] June 5, 1971: International Seminar on Binary Reactions of Hadrons at High Energies, Dubna, USSR, “Models for High-Energy Collisions of Hadrons”
- [15] May 6, 1971: Theoretical Physics Seminar, Argonne National Laboratory, “A New Regge Phenomenology”
- [14] April 23, 1971: Elementary Particle Seminar, Rutgers University, “Multiparticle Reactions at Intermediate Energies”
- [13] April 22, 1971: Elementary Particles Seminar, State University of New York, Stony Brook, “Report on the Caltech Conferences on Phenomenology and Hadron Physics at Intermediate Energies”
- [12] April 14, 1971: Elementary Particle Physics Seminar, Yale University, “Multiparticle Reactions at Intermediate Energies”
- [11] March 30, 1971: Caltech Workshop on Hadron Physics at Intermediate Energies, “Multiparticle Reactions at Intermediate Energies”
- [10] March 22, 1971: Theory Seminar, University of California, Berkeley, “A New Regge Phenomenology”
- [9] February 24, 1971: Theory Seminar, University of Wisconsin–Madison, “A New Regge Phenomenology of Inclusive Reactions”
- [8] February 17, 1971: Elementary Particles Seminar, State University of New York, Stony Brook, “A Regge Phenomenology for Inclusive Reactions”
- [7] January 23, 1971: High-Energy Physics Seminar, University of Pennsylvania, “The Approach to Limiting Fragmentation”
- [6] November 23, 1970: Theoretical Physics Seminar, State University of New York, Stony Brook, “Phenomenological Applications of Regge Cuts”
- [5] October 7, 1970: Elementary Particles Seminar, State University of New York, Stony Brook, “Decisive Tests of High-Energy Models”
- [4] January 22, 1970: Research Progress Meeting, Lawrence Radiation Laboratory, Berkeley, “Charged Pion Photoproduction and the J -Plane Jungle”
- [3] January 7, 1970: High Energy Physics Division Colloquium, Argonne National Laboratory, “Theory of $\rho\omega$ Interference in $\pi^+\pi^-$ Production”
- [2] August 18, 1969: Boulder Conference on High Energy Physics, “ $\rho\omega$ Interference”
- [1] July 29, 1969: Research Progress Meeting, Lawrence Radiation Laboratory, Berkeley (with Donald G. Coyne), “A New Theory of $\rho\omega$ Interference”
